Wm. YOUNGER'S "MONK" ALE AGENCY .

The Agency has now been with us for two years and a half, and we regret that we have made but poor progress. The Agency was handed over to us with a large stock of Bulk Ale that had been in Bond for some time, and which we were obliged to rank as unsound. A large stock of old Bottled Beer, in both Quarts and Pints, was also on hand. We suggested the advisability of running the bulk ale into the Harbour, as selling it would certainly do the Brand no good. Our suggestion was, however, not acted on, and it was with difficulty that we have eventually worked off this old incubus. We then received several small parcels of bulk - some of which turned out so satisfactorily that we were hopeful of working up the brand once more, and we cabled home for 100 Hhds. These arrived here in December,

all Beer in very bad condition,

in other terms the quality of the Ale has been sacrificed to obtain this end. We almost, however, incline to recommend some trial shipments of cloudless bottled ale to endeavor to recover the publican's Trade, but some newly bottled old quality should also come out for the private Trade.

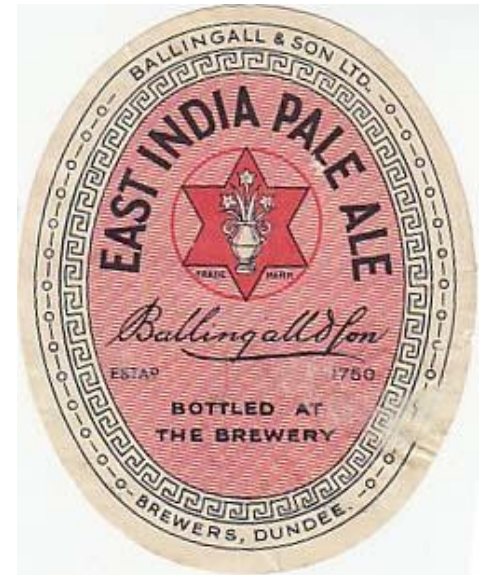

We are doing our best to increase the business, but are meeting serious competition from the local Breweries, who are doing a largely increasing business in Colonial Ale - both Bulk and Bottled.
